

4 Pillars of Action

SHARE SUCCESS STORIES

- Set up Global Restoration Information Hub
- Recognize leadership and excellence through Awards

EMPOWER CIVIL SOCIETY

- Promote start-ups and 10,000 Youth ecopreneurs
- Support women and indigenous communities

ENGAGE PRIVATE SECTOR

- Restore land at industrial scale
- Train 1 million graduates in land restoration to support restoration industry

BUILD CAPACITY

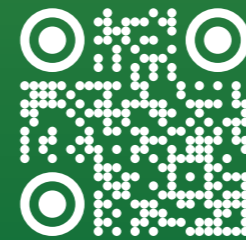

- Support land related legislation in 100 countries
- Mainstream restoration courses in 1,000 universities

Collaboration with member-led initiatives

- Restoration of peatlands initiated under Indonesia's Presidency
- Restoration of degraded mines and forests destroyed by fire initiated under India's Presidency
- Restoration of 200 million hectares of mangroves under Saudi Green Initiative and Middle East Green Initiative led by Saudi Arabia

The G20 Global Land Initiative was established in November 2020 under the Saudi Arabia's G20 Presidency.

It is hosted at the United Nations Convention to Combat Desertification (UNCCD) in Bonn, Germany.

G20 Global Land Initiative Quick Facts

G20 GLOBAL LAND INITIATIVE

Ambition:

50% Reduction of Global Degraded Land by 2040

Membership

- 19 countries
- European Union
- African Union
- Interested G20 non-Member countries are welcome to join the Global Land Initiative

Leverage G20 brings to land restoration

- More than 85 per cent of Global Gross Domestic Product
- More than 75 percent of international trade
- More than two thirds of global population
- 76 per cent land area

Scope:

Restoration of all terrestrial ecosystems

Mangroves

Croplands

Peatlands

Drylands

Rangelands

Forests

Soil

Grasslands

Tundra

Karst

Wetlands

Strategic Approach:

Supportive, Collaborative and Innovative

Supportive of existing global restoration commitments estimated at over one billion hectares globally, including:

- Bonn Challenge commitments to restore 210 million hectares of degraded forests
- UNCCD Land Degradation Neutrality commitments to restore 450 million hectares of degraded agricultural and dry lands
- UN Convention on Biological Diversity commitments to restore 90 million hectares of degraded terrestrial ecosystems
- UN Framework Convention on Climate Change commitments to restore 250 million hectares of land
- United Nations Decade on Ecosystem Restoration
- Kunming-Montreal Global Biodiversity Framework commitments to restore 30 percent of degraded terrestrial ecosystems by 2030
- Ramsar Convention on Wetlands
