Date // **5 Dec 2024**

Time // **10:00-11:00 AST**

Location // Blue Zone,
Restoration Pavilion

This event will showcase successful partnerships, innovative restoration techniques and strategies for integrating land restoration with adaptation. Key discussions include overcoming challenges in funding, policy and community engagement, scaling up successful projects and fostering future collaborations. The event aims to inspire stakeholders to adopt innovative approaches, enhance ecosystem resilience and address climate change impacts through land restoration efforts, while providing a platform for networking and capacity building among partners.
