RESTORATION
PAVILION

Date // **10 Dec 2024**
Time // **13:00-14:00 AST**
Location // Blue Zone,
Restoration Pavilion

Climate change and disasters are driving land degradation, biodiversity loss, and ecosystem collapse, threatening food security and livelihoods. To boost resilience, the Asian Disaster Preparedness Center (ADPC) partners with governments and stakeholders on over 40 innovations, from AI-powered disaster resilience tools to climate-smart agriculture, supported by major donors like the World Bank, FCDO-UK and USAID. This side event will showcase people-centered approaches and groundbreaking innovations, contributing to sustainable land restoration and global climate resilience.
