

# Feeding the Future:

Preventing Erosion and  
Building Resilience

© Hoang Vu/Greenstorm/UNCCD G20 GLI

Date // **11 Dec 2024**

Time // **15:00-16:30 AST**

Location // Blue Zone,  
Restoration Pavilion

Join us for an interactive intergenerational dialogue led by youth, focused on transforming land degradation into abundance. This workshop, aligned with the UNCCD's Youth Engagement Strategy, empowers young leaders to address erosion—be it environmental, social, or personal—through regenerative agriculture and conscious lifestyle choices. Participants will develop actionable skills, collaborate with experts, and identify specific local initiatives, such as diverse cropping systems and community gardens, that restore ecosystems and strengthen community resilience.
