Imagine Land 2040

RESTORATION PAVILION

UNCCD
COP16
Riyadh | 2024

SCIENCE, TECHNOLOGY
AND INNOVATION DAY

Date // **9 Dec 2024**

Time // **18:00-20:00 AST**

Location // Blue Zone,
Restoration Pavilion

Imagine Land 2040 is an innovative project by the Tomorrow in Focus collective, created by students at Vanderbilt University and facilitated by G20 Global Land Initiative, hosted at UNCCD. This groundbreaking short film leverages AI and youth creativity to envision a restored future. The film features young protagonists from the United States, Senegal, China and Brazil, exploring technology's transformative role in land restoration. Premiering at COP16, *Imagine Land 2040* serves as a call to action, inspiring global leaders and audiences to embrace youth-driven, AI-powered solutions to combat land degradation.
