

KISS the GROUND

Date // **5 Dec 2024**

Time // **18:00-20:00 AST**

Location // Blue Zone,
Restoration Pavilion

Kiss the Ground is a powerful documentary by Joshua and Rebecca Harrell Tickell that reveals how soil regeneration can help balance our climate, replenish water supplies and heal the planet. Through stunning visuals and insights from scientists, farmers and activists, the film uncovers the potential of regenerative agriculture to reverse climate change. Kiss the Ground is an inspiring call to action, showing that the solution to our biggest environmental challenges lies right beneath our feet.
