

Leveraging Public-Private Partnerships for Land Restoration

Date // **4 Dec 2024**

Time // **11:00-12:30 AST**

Location // Blue Zone,
Restoration Pavilion

Private sector participation has long been seen as key for successful large-scale restoration, whether from a financing perspective or as a way to increase economic benefits related to land restoration. The event will explore the 'black box' of private sector participation. Participants will look at the different roles the private sector can play in restoration. More specifically, the key partnership mechanisms needed to fulfil these roles and to unlock the full potential of the sector.
