FINANCE DAY

Monitoring land degradation and restoration using innovative tools and expert knowledge

UNCCD
COP16
Riyadh | 2024

RESTORATION PAVILION

© A. Malekzadeh/Greenstorm/UNCCD G20 GLI

Date // **11 Dec 2024**

Time // **16:30-18:00 AST**

Location // Blue Zone,
Restoration Pavilion

This side event will showcase innovative tools and expert knowledge to enhance land degradation and restoration monitoring, with a focus on informed decision-making and sustainable land use practices. Key topics include advanced remote sensing, AI-driven assessments, and integrating local knowledge for tailored solutions. The event will also explore partnerships, policy support, and alignment with global sustainability frameworks, aiming to catalyze collaborative progress toward land degradation neutrality and resilience, particularly in vulnerable regions.
