UNCCD-G20 Global Land Initiative is launching its Small Grants Program, it is supporting 60 community-led projects worldwide with grants of between USD 5,000 and 15,000. This event will feature presentations from three grant winners, sharing their impactful work on ecosystem restoration in Cameroon, the Gambia and Argentina. The program aims to scale diverse land restoration efforts across landscapes and foster community-driven solutions, inspiring collaboration and action for sustainable land use globally.
