

Restoring Resilience:

Innovative Approaches
to Degraded Land
Rehabilitation in the
Arab Region

Date // **3 Dec 2024**
Time // **14:15-15:30 AST**
Location // Blue Zone,
Restoration Pavilion

This side event will address land degradation in the Arab region's arid climates. Organized by the Arab Center for the Studies of Arid Zones and Dry Lands (ACSAD), it will showcase innovative land rehabilitation techniques, promote regional cooperation and explore supportive policy frameworks. The session aims to foster collaboration among policymakers, scientists and communities to enhance sustainable land management and resilience in vulnerable areas.
